THE VISTA STORY

Frame the view. Flood the room.

The Vista Fixed 100 Series turns an ordinary wall into a living picture. A slim 65 mm frame face and a fixed, non-operable sash strip the hardware away entirely, leaving nothing between you and the outdoors but glass.

Order it as a standalone picture window to capture a garden, a skyline, or a courtyard — or combine it with operable windows and doors across an elevation for one continuous ribbon of light. Dual-pane tempered low-E glass insulates against heat and noise, and the thermal-break aluminum frame stands up to harsh sun and driving rain with nothing to adjust and nothing to wear out — just wipe and go. Built to order: choose the size, the glass, and the finish.
